Affluence, Austerity and Electoral Change in Britain sets out to investigate the political economy of party support for British political parties since Tony Blair led New Labour to power in 1997. Using valence politics models of electoral choice and marshalling a wealth of survey data collected in the British Election Study's monthly Continuous Monitoring Surveys, the authors trace forces affecting support for New Labour during its thirteen years in office.

Book Review: Affluence, Austerity and Electoral Change in ...

The core thesis of Affluence, Austerity and Electoral Change in Britain is that Britain's recent general elections have been decided by "valence factors" – that is ones where voters choose between parties based on evaluation of their competence rather than making choices based on competing ideologies. Voters evaluate competency and credibility rather than competing lists of policy options.
