Ecology and evolutionary developmental biology of cave animals: EcoEvoDevo. After a period of strong criticisms, adaptation has recently come back as a central issue in evolutionary biology [].In 1966, George C. Williams published an influential book, “Adaptation and Natural Selection,” in which he discredited the usage of a naive adaptationist reasoning.

There is nothing different about a cave that would make it immune to the shaking from an earthquake. Just as there are safer and less safer places to be on the surface of the earth during an earthquake, there are also various characteristics inside caves that make some cave locations safer or less safe than others. First of all, whether or not you feel an earthquake in a cave

Can you feel an earthquake if you're in a cave? Is it ...

The Los Angeles city newspapers generally only publish obituaries for well-known citizens. Death notices—which are paid announcements—appear more frequently. These vary in length, but many only give the name of the decedent and the name of a mortuary.There is no comprehensive index to obituaries and death notices for the newspapers in Los Angeles.

Denisova Cave is in south-central Siberia, Russia in the Altai Mountains near the border with Kazakhstan, China and Mongolia. It is named after Denis (Dyonisiy), a Russian hermit who lived there in the 18th century. The cave was originally explored in the 1970s by Russian paleontologist Nikolai Ovodov, who was looking for remains of canids.. In 2008, Michael Shunkov from the Russian Academy of ...

COLD SPRING HARBOR, NEW YORK —In 2010, a girl's pinkie bone from Denisova Cave in Siberia added a new branch to the human family tree. The bone was so well preserved that researchers could fully sequence its genome and glimpse the DNA of archaic people now called Denisovans (Science , 28 January 2011, p. [392][1]; 26 August 2011, p. [1084][2]). Now, researchers have analyzed three more ...
