...

Your 140 engine is actually 181 cu in or 3.0 liter. These engines were never used in cars but were an industrial/marine engine. They have a pretty good cyl head but it can still benefit from a little port work. They accept hi perf sbc valves and springs although most of them come with a 1.94 intake and a 1.6 exh valve.

That is why it is so important to routinely check your Mercruiser spark plugs, wires, and wiring harness for signs that its service life is over. If your plugs are pitted and your engine performance has diminished, their replacement is a no-brainer. With wiring it is a bit harder to tell. There are two schools of thought here.
